## Wiring Has Never Been Easier With The New Cooper Magnum<sup>®</sup> Euro-Mag Terminal Blocks

**ST. LOUIS** – The new Cooper Magnum<sup>®</sup> Euro-Mag line of standard European style PCB terminal blocks and plugs is available in six different styles to make wiring easier. These high current terminal blocks from Cooper Bussmann can handle substantial power (up to 600V and 115A) right on the circuit board.

Six styles cover many applications from straight-to-board, and plug and header. Terminal options make connections easy; choose from screw, screwless and insulation displacement connectors (IDC).

Two- and three-tier versions save valuable PCB space. Mold-to-length designs deliver the exact number of poles for the application and modular (stackable) designs ease inventory needs.

Wire entry orientations solve wire routing issues (horizontal, vertical, 30°, 35°, 45° and 60°. Center spacings range from 2.54 to 15.00mm, and custom configurations meet customer-specific industry standard requirements.

For more information about Cooper Magnum Euro-Mag PCB terminal blocks from Cooper Bussmann, visit [www.cooperbussmann.com](http://www.cooperbussmann.com) or call 888-937-6246.

###

### **About Cooper Bussmann**

Cooper Bussmann, a division of Cooper Industries (NYSE: CBE), is headquartered in St. Louis, Missouri, and manufactures and markets circuit protection products and services globally for the electrical, electronic and transportation industries. Additional information about Cooper Bussmann is available online at [www.cooperbussmann.com](http://www.cooperbussmann.com).

**About Cooper Industries**

Cooper Industries, Ltd. is a global manufacturer with 2006 revenues of \$5.2 billion, approximately 85 percent of which are from electrical products. Incorporated in Bermuda with administrative headquarters in Houston, Cooper employs approximately 31,000 people and operates eight divisions: Cooper B-Line, Cooper Bussmann, Cooper Crouse-Hinds, Cooper Lighting, Cooper Menvier, Cooper Power Systems, Cooper Wiring Devices and Cooper Tools group. Cooper Connection provides a common marketing and selling platform for Cooper's sales to electrical distributors. For more information, visit [www.cooperindustries.com](http://www.cooperindustries.com).
