

Take Workplace Safety to the Next Level

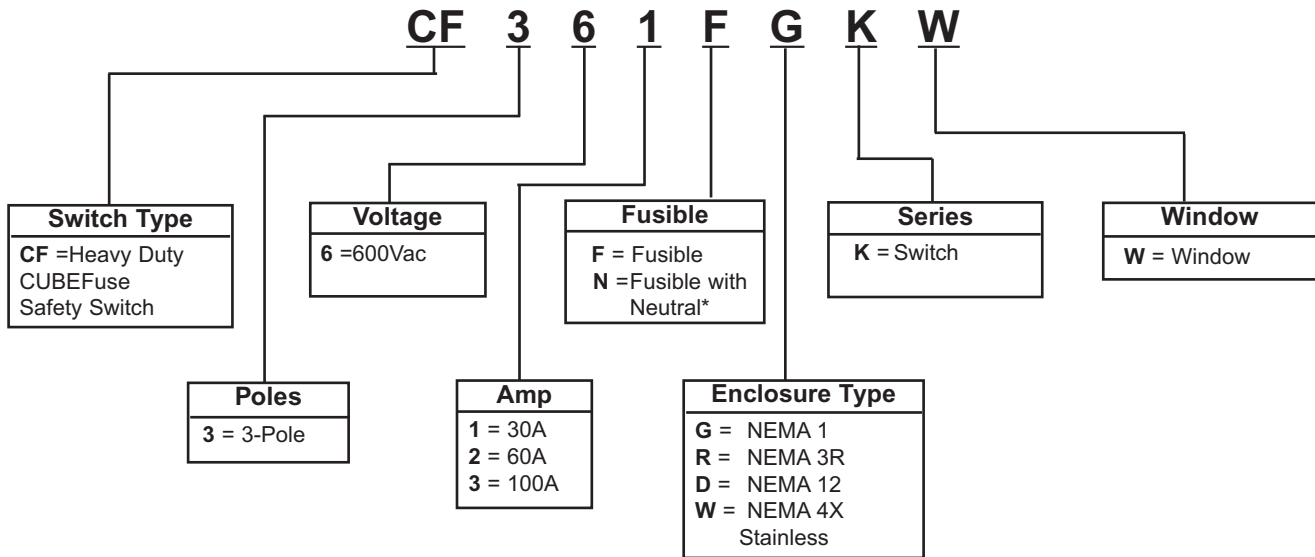

Cooper Bussmann® Quik-Spec™ Safety Switch Provides Extra Measure of Protection

- **Flexibility of Application**
This heavy-duty 600V safety switch is available up to 100A with NEMA 1, 3R, 12 and 4X enclosures.
- **Enhanced Finger-Safe Design**
The IP20 Cooper Bussmann® CUBEFuse® isolates live electrical parts from accidental contact to increase safety. Large lineside shield is standard on all models, virtually eliminating accidental contact with live parts.
- **Current-Limiting Fuses Reduce Arc-Flash Hazard**
Featuring Class CF CUBEFuse, with Class J performance, the Quik-Spec™ Safety Switch offers industry-best arc-flash protection versus traditional models.
- **No Tools Required for Fuse Removal**
Reduces downtime and potential arc-flash hazard.
- **Meets UL and NEC® Requirements**
Listed to UL 98 and UL 50 standards, the Quik-Spec Safety Switch is rated 200kA at 600Vac, which makes it easier to comply with NEC® 110.9 and 110.10 requirements.
- **Flange Handle Operation**
Always in contact with the switch mechanism, the flange operated switch is preferred in most industries.
- **Easy Interface with Viewing Window Option**
Window provides visual verification that switch contacts have operated, plus the ability to view optional fuse indication without opening the switch door.

Quik-Spec™ Safety Switch Catalog Numbering System

Available With Auxiliary Contacts

The Cooper Bussmann Safety Switch is available with auxiliary contacts. To order, add the following suffixes to the above catalog numbering system:

- 2 = 1 Normally Open (NO) and 1 Normally Closed (NC) contacts
- 3 = 2 Normally Open (NO) and 2 Normally Closed (NC) contacts

*Suitable for service entrance use with neutral kit installed.

Maximum Horsepower Ratings							
System	Amp Rating	Fuse Type (Performance)	Single-Phase		Three-Phase		Direct Current
			480Vac	600Vac	480Vac	600Vac	250Vdc
3-Pole	30	CUBEFuse (Class CF**)	7½	10	10	15	5
	60	CUBEFuse (Class CF**)	20	25	30	30	10
	100	CUBEFuse (Class CF**)	30	40	50	50	15

**Class J electrical performance.
