### **Cooper Bussmann® Pro Pak has the Right Circuit Protection for the Job**

*Automotive Technician's Assortment Kit Contains 290 Circuit Protection Products*

**St. Louis, MO, March 31, 2009** – The new Cooper Bussmann® Pro Pak Professional Technician's Assortment provides service technicians an organized supply of the most common circuit protection products for automotive repair or maintenance applications. The Pro Pak assortment contains 290 of the most commonly used automotive fuses and circuit breakers, making it easier and more efficient to restore power fast.

The Pro Pak Professional Technician's Assortment, part number NO.290, provides the right fuse or circuit breaker for the job. Contents include:

- Blade and glass tube fuses
- Blade-type circuit breakers
- Fusible links
- In-line fuse holders
- Fuse puller and fuse tester

In addition to the comprehensive range of circuit protection devices, this assortment is accompanied by a FREE high-power white LED spotlight. Equipped with a locking on/off switch and a magnetic base for convenient hands-free use, the high-powered Tech Spotlight is mounted on an insulated, flexible cord, perfect for use in hard-to-reach places under the hood.

The Pro Pak's durable, compact carrying case keeps organization simple, and allows technicians to keep a running inventory for fuse and circuit breaker replacement purposes. With the extensive line of 290 components conveniently listed with their corresponding locations identified, finding the right circuit protection device is fast and easy.

“Finding the right fuse for the job often turns into a costly waste of a technician’s valuable time,” stated Kevin Hug, senior product manager at Cooper Bussmann. “The Pro Pak Professional Technician’s Assortment offers a comprehensive selection of commonly-used automotive circuit protection products, which are conveniently organized into a portable carrying case. Finding the right fuse or circuit breaker has never been easier.”

Cooper Bussmann offers the most complete line of circuit protection products and accessories for the automotive aftermarket. For more information about the Cooper Bussmann Pro Pak Automotive Technician’s Assortment, or any other Cooper Bussmann product, visit [www.cooperbussmann.com](http://www.cooperbussmann.com).

#### **About Cooper Bussmann**

Cooper Bussmann, the industry leader in downtime reduction, workplace safety and Code compliance solutions, is a division of Cooper Industries (NYSE: CBE), and is headquartered in St. Louis, Missouri, USA. The company is committed to the development, manufacturing and marketing of innovative circuit protection products, and provides engineering, training and testing services globally for the electrical, electronics and transportation industries. Additional information about Cooper Bussmann is available online at [www.cooperbussmann.com](http://www.cooperbussmann.com).

#### **About Cooper Industries**

Cooper Industries, Ltd. (NYSE: CBE) is a global manufacturer with 2008 revenues of \$6.5 billion, approximately 88 percent of which are from electrical products. Founded in 1833, Cooper’s sustained level of success is attributable to a constant focus on innovation, evolving business practices while maintaining the highest ethical standards, and meeting customer needs. The Company has eight operating divisions with leading market share positions and world-class products and brands including: Bussmann electrical and electronic fuses; Crouse-Hinds and CEAG explosion-proof electrical equipment; Halo and Metalux lighting fixtures; and Kyle and McGraw-Edison power systems products. With this broad range of products, Cooper is uniquely positioned for several long-term growth trends including the global infrastructure build-out, the need to improve the reliability and productivity of the electric grid, the demand for higher energy-efficient products and the need for improved electrical safety. In 2008, 61 percent of total sales were to customers in the industrial and utility end-markets and 37 percent of total sales were to customers outside the United States. Cooper, which has manufacturing facilities in 23 countries as of 2008, is incorporated in Bermuda with administrative headquarters in Houston, TX.
